

## COAXIAL ROTARY JOINTS (Model # : ACRJ SERIES)

### Description

- LOW VSWR
- LOW INSERTION LOS
- LOW WOW

Coaxial Rotary Joint has coaxial connectors with both sides. Therefore, not only small size but high performances are available. Because all parts are symmetrically circular, free rotation without performance degradation is accomplished. Coaxial Rotary Joint modules from ACTIPASS are available on limited bandwidth of all frequency bands. Moreover the products using other connectors are possible.

### Application

Antenna system
